

An aerial photograph of a coastline. On the left, a dark, rocky shore is visible with white waves crashing against it. The water is a deep blue-green. On the right, the water is lighter and more turbulent, with white foam from the waves washing onto a sandy beach. The overall scene is dynamic and scenic.

Renting a car presents an interesting alternative. In addition to the well-known car rental companies such as Hertz, Sixt, Avis, Europcar etc. directly

at the airport, there are three other providers (Drivalia Car Rental, OK Rent a Car and Goldcar) just outside the airport with numerous and particularly inexpensive offers.

A good advice is to book early. It is worth it! In the last few years it has become particularly popular to travel to O Porto by plane and drive tous from their with a rental car.
